## Single Quest

# A Band of Thieves

"You are sitting at a table at the local tavern, enjoying a well-earned mug of mead, when two large men approach the table.

"Greetings fellow adventurers," they say as they take a seat beside you. "Let's order another drink while we tell you of our

troubles." During a long night of drinking, the two Barbarian brothers tell you how their keep has been overrun by Greenskins and their father is also being held captive. They offer you 500 gold coins if you can clear the keep and rescue their father."

### NOTES:

- A** In a hollowed-out book on the shelf, there is a Potion of Healing, which will restore up to 4 lost Body Points.
- B** In this hidden crypt, anyone who searches the room for treasure will find a longsword and a gem worth 40 gold coins in the tomb. Inside the chest is a Potion of Healing that will restore up to 4 lost Body Points.
- C** In this hidden room, there are two chests. One chest contains a Potion of Healing, which will restore up to 4 lost Body Points. The other chest contains 260 gold coins but is locked.
- D** There is a dead body on the rack. If this room is searched, the key for the locked chest at C will be found on the dead body.
- E** It's a double cross! As soon as one of the Heroes enter the room and tries to move past either Barbarian, read this to the Heroes:

*"The Barbarian brothers are blocking the exit. By the grim looks on their faces, you won't be leaving the keep alive!"*

The Barbarians will attack on their next turn. If the Barbarians are killed and their bodies searched, a battleaxe and 100 gold coins will be found on each corpse.
